How long has your business been open?

CIRE Travel opened in 2013 but I've been a professional travel advisor for 20+ years and many on my team have been in the business for over 30 years. We opened our office in the Kennebunks in 2018 and love being part of this community.

Your primary service offered:

Travel planning services for luxury vacations, epic honeymoons, and once-in-a-lifetime, bucket list adventures! We also manage corporate travel for small to mid-sized businesses and group travel.

What makes your business special?

Our team! The professional travel advisors at CIRE truly care about our clients. For example, we had a honeymoon couple on their way to Bali. They were literally in the air when we got the call that their 4-star hotel had been damaged in

a flood, had no power, and would not be accepting guests. This was before there was WiFi on flights so we immediately jumped into action. When the newlyweds finally landed in Bali, they were met by a driver with a note from us explaining the situation. We had already booked them alternate accommodation at the 5-star hotel right next door (at the same room rate). Crisis averted! When you work with CIRE Travel, it's handled!

Best thing you do/serve:

The best thing we do is take care of our clients. No hold times, no run-around... Real people, professional

agents, are here to help. Our team is up-to-date on all the facts from our airline, hotel, and cruise partners. We know travel planning can be confusing, especially these days, but you have an ally in CIRE Travel.

Something people don't realize about your services?

The amazing perks and benefits you get by working with a professional travel advisor! Room upgrades, dining and spa credits, waived change fees, a bottle of bubbles waiting for you in your room...our connections are your connections. With CIRE Travel, you know people who know people!
