

# PERENNIALLY YOURS, LLC

## How long in business?

27 years!

## Primary business/service offered?

Flower garden designs and education for high-impact, low-maintenance, and pollinator friendly gardens.

## What makes your business special?

I am a people person and a plant lover. I love meeting new clients, listening to their garden vision, and then applying my knowledge as we work together on the project.

I have been a garden designer for several premier gardens centers, plus I trial new plants as a garden writer and speaker in the green industry. I was honored to receive the 2020 Best of Kennebunk Award in the Gardener category. I have also won several horticultural awards including the Gold Medal award from the Massachusetts Horticultural Society.

## Best thing you sell/serve/do?

Make people happy with their new gardens!

## Something people don't realize about your business?

I didn't start gardening until I was 30! My husband and I experienced financially challenging times, resulting in my taking a second job on weekends at a garden center. In 1995 I decided to turn my gardening hobby into a business.

My gardens have been featured in magazines; I have given hundreds of lectures in 21 states plus Canada; written 4 gardening books; and conducted over 1,000 design consultations.
