

Checkmark Property Services

How long in business?

5 years!

Primary business/service offered?

Hospitality Maintenance - we specialize in the unique needs of the hospitality industry. As time to make repairs during a busy season is limited, Checkmark understands this need and works with our clients to make the repairs in their timeframe.

What makes your business special?

Our Checkmark Advantage Program (CAP) allows our clients to take advantage of our maintenance program at a reduced rate. By setting up a set time each week, you are able to plan accordingly for the workday at your business.

In most cases, having Checkmark perform a task is much less expensive than bringing in a specialized contractor to make the repair.

Best thing you sell/serve/do?

Offer peace of mind. You don't need to hire a high priced maintenance person. Just hire someone to do the basic smaller jobs and save the bigger more complex jobs for Checkmark. If you only have one maintenance person, you now have coverage on their days off because Checkmark has you covered.

Something people don't realize about your business?

We are a Certified Pool Operator (CPO). Best of all, we monitor your equipment to be sure it is all running at maximum capacity and performing efficiently.
