

SPOTLIGHT

a weekly feature of the Kennebunk-Kennebunkport-Arundel Chamber of Commerce

Angelus Urgent Veterinarian Care

Owner?

Dr. Katie Roberts

How long in business?

1.5 years!

Primary business/service offered?

Urgent Veterinarian Care

What makes your business special?

We want our clients to feel that their pets are the most important patients that we have. We aim to treat each patient as though they were our own pet and to be open and honest with diagnosis and treatment options. We aim to be a complimentary member of their pet's health care team.

Best thing you sell/serve/do?

Angelus provides excellent care and comfort to clients and patients when their family veterinarian is unavailable. We strive to be a calm port in the storm when pets develop acute illness, experience an accident or trauma, or require care while traveling or at home. We aim to act as an extension of the general practice, and a bridge if more intensive care is required for the patient.

Something people don't realize about your business?

Each member of the team has their own pets and are very dedicated to caring for the pets of others.
