ARUNDEL FARM GALLERY

Best thing you sell/serve/do?

We exhibit high quality artwork that is out of the ordinary from what visitors will see downtown. Our art workshops offer the same high quality, are small in size, and in a safe environment, with lots of individual instruction. Our workshops generally include: watercolor painting, collage, cold wax, botanical printmaking, monotype printmaking, floral photography, mosaics.

Something people don't realize about your business?

Our art workshops have become quite popular and we have students traveling here from all over the USA to take classes with our top quality instructors.
