

SPOTLIGHT

a weekly feature of the Kennebunk-Kennebunkport-Arundel Chamber of Commerce

Olympia Snowe Women's Leadership Institute

How long in business?

9 years!

Primary business/service offered?

Leadership development for teen girls in Maine.

What makes your business special?

Our mission is to raise the confidence and aspirations of high school girls by helping them develop the skills required to be leaders in their lives, families, careers and communities.

Best thing you sell/serve/do?

Each year, the Institute has an incredible impact on program participants. More than 90% of participants report that the program positively impacted their ability to be a leader, be a mentor, be confident and develop leadership skills. This includes understanding their value system, communicating effectively and appropriately, listening actively and keeping an open mind, appreciating diverse perspectives, tackling challenge and taking responsibility, building and maintaining a network.

Something people don't realize about your business?

There are opportunities for the public to engage with the Institute and the high school girls who participate in the program as "Olympia's Leaders." Women can become a mentor or join the "Leader's Network." All genders may become a guest speaker, volunteer, or supporter.
