

Revolution Rail Co.

Owner?

Robert Harte, Founder

How long in business?

Since 2017; Kennebunkport since 2022.

Primary business/service offered?

Railbiking tours – a unique experience where participants can leisurely pedal on historic railway tracks through scenic areas. Our custom-built rail bikes are designed for a sit-down, side-by-side experience, making them accessible and enjoyable for people of all fitness levels and ages.

What makes your business special?

Railbiking is new and unique! We offer an immersive railbiking experience at locations across the U.S.

Best thing you sell/serve/do?

Through railbiking, we reintroduce our riders to the beauty and history of the natural surroundings in the area. Our guided railbike tours offer a unique way to explore scenic landscapes, all while pedaling along historic rail lines that had often been abandoned.

Something people don't realize about your business?

Our commitment to environmental and community initiatives is at the heart of everything we do.
