

SPOTLIGHT

a weekly feature of the Kennebunk-Kennebunkport-Arundel Chamber of Commerce

Reform Physical Therapy

How long in business?

19 years!

Primary business/service offered?

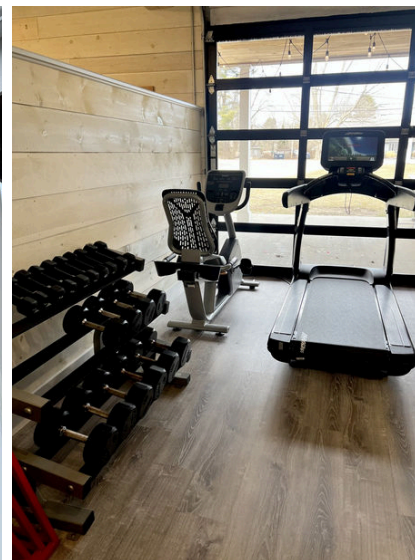

One-on-one, individualized, hands-on physical therapy and strength training! Our therapists have experience and continuing educational certificates to treat most bodily issues.

What makes your business special?

We treat the individual, not just the injury! Our therapists truly only treat in a one-on-one setting, allowing them to best familiarize themselves with each patient's unique restrictions, goals, and needs. Each patient's treatment plan is specifically tailored to offer them the most time-and cost-efficient solutions to their aches and pains.

Best thing you sell/serve/do?

We care for people with acute and chronic injuries, as well as people recovering from surgery. At Reform, we know that pain doesn't just equal pain. Pain equals missed opportunities, altered plans, and altogether limits the enjoyment life offers. We care, we hear you, and we can help.

Something people don't realize about your business/services?

Bobby Cochrane, PT, DPT, SCS, CSCS is one of just ten Sports Clinical Specialists in the entire state of Maine! His SCS board certification offers increased competency in evaluation, treatment, and resolution of sport-related injuries.
