

Nest by Kristen Weiss, LLC

Owner?

Kristen Weiss

How long in business?

5 years, but brand new to Kennebunk!

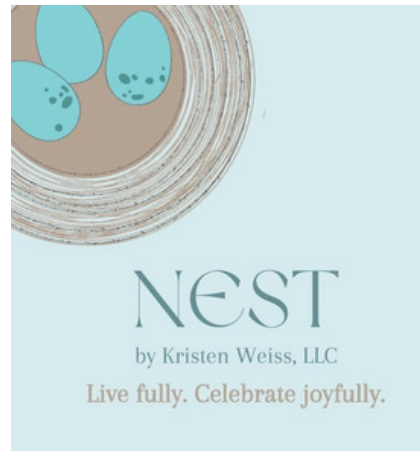

Primary business/service offered?

Budget friendly interior styling and at home event planning.

What makes your business special?

My passion of interior styling and the art of gathering organically grew into a business. My husband and I met at The Colony Hotel in the summer of 1991 when I was a waitress and he was a bellman. We got married at The Colony in 1996. Fast forward to today with 3 grown children, we decided the time was right to move to Kennebunk full time as empty nesters!

I wanted to bring my business to this community because I know there is a need for budget friendly decorating and at home entertaining. So often, people get overwhelmed with the thought of refreshing their home or hosting a gathering and freeze - that's where I come in! What makes my services truly special is my ability to create beautiful, personalized spaces and memorable gatherings - all while staying within a budget.

Best thing you sell/serve/do?

I take great pride in the strong relationships I create with my clients. My approach is to foster a collaborative and fun partnership with each client which is rooted with open lines of communication, ensuring that each project or event exceeds their expectations.

Something people don't realize about your business/services?

I offer an hourly rate and also a project/event based rate which allows budget-friendly flexibility. Fun fact, the majority of my business has come from referrals but I am excited to cast a wider net by being part of the KKA Chamber!
