

Ogunquit Museum of American Art

How long in business?

OMAA opened as the Museum of Art of Ogunquit in the summer of 1953!

Primary business/service offered?

We present temporary exhibitions of modern and historically significant art and related programming. Our seaside sculpture garden is a short distance from Perkins Cove and the Marginal Way.

What makes your business special?

Our combination of world class contemporary and historic art, a significant Midcentury Modern building, and a sculpture garden with sweeping ocean views. As the gateway to art in Maine, OMAA is the southernmost point on a statewide network of great museums. We meet the need for high quality arts and culture programming between Boston and Portland in a beautiful coastal setting.

Ogunquit
MUSEUM
of American Art

Best thing you sell/serve/do?

OMAA presents innovative exhibitions spotlighting emerging American artists and important new perspectives on American art of the 19th and 20th centuries.

Something people don't realize about your business/services?

With a full calendar of lectures, classes and events (including family friendly ones), OMAA has something for everyone. The Museum contributes to the advancement of arts research by maintaining archives and publishing original, scholarly catalogues to accompany exhibitions. Our museum shop carries a wide range of art books, along with local arts & crafts.
