

SPOTLIGHT

a weekly feature of the Kennebunk-Kennebunkport-Arundel Chamber of Commerce

TC Hafford Basement Systems

How long in business?

34 years!

Primary business/service offered?

We offer basement waterproofing, crawl space encapsulation, concrete repair and foundation repair. Many New England homes are old and still on their original fieldstone foundation walls; we've seen a growing need for foundation repairs in particular, and we have a wonderful wall repair solution called StableLock Wall that is less costly and disruptive than traditional foundation repairs!

What makes your business special?

We are a local Maine company established in 1991, employing nearly 100 Mainers. We have offices in Wells and Brewer, which allows us to service the entire state.

Best thing you sell/serve/do?

All Things Basementy!

Our team strives for WOW service, we want to be the best contractor you've ever worked with. We pride ourselves on great customer service and follow up.

Something people don't realize about your business/services?

In addition to basement services, we also offer seamless gutters and attic/garage insulation!

TC Hafford Basement Systems
