

# SPOTLIGHT

a weekly feature of the Kennebunk-Kennebunkport-Arundel Chamber of Commerce

## S.B. Taylor Transport (Moving)

### How long in business?

4 years this December!

### Primary business/service offered?

Residential and commercial moving (interstate & intrastate), inner home rearranges, furniture assembly and delivery, warehousing/storage, and packing services.

### What makes your business special?

As a female-owned and operated business, we bring a caregiver's heart to an industry that often lacks compassion. Our founder's experience as a CNA working with veterans with Alzheimer's and dementia, hospice patients, and home health clients means we understand that moves aren't just logistical—they're emotional, physical, and often overwhelming life transitions.

We specialize in supporting two groups who need us most: seniors navigating downsizing and relocations to assisted living, and busy families juggling work, kids, and the chaos of moving. We move at your pace, listen to your concerns, and handle both your belongings and your story with dignity and respect.

We're not what you'd expect from movers—we're caregivers who happen to move furniture. Every service we offer is delivered with the same principle: trust, reliability, and compassionate care. Because at S.B. Taylor Moving, every move is Taylor'd to You.

## S.B. TAYLOR MOVING

We Move Your Life—Not Just Your Stuff

### Best thing you sell/serve/do?

We specialize in compassionate transitions—especially for seniors and busy families overwhelmed by the moving process. We don't just move your belongings; we provide emotional support, move at your pace, and treat you and your home with the respect you deserve during life's biggest changes.

### Something people don't realize about your business/services?

Most people don't realize we're not just movers—we're trained caregivers. We understand the unique challenges of senior transitions and emotionally complex moves. We also offer services beyond traditional moving, like inner home rearranges, so you can call us anytime you need a helping hand—not just when you're changing addresses.
