a weekly feature of the Kennebunk-Kennebunkport-Arundel Chamber of Commerce

Home Watch Experts

How long in business?

Established in 2025 to fill a local gap in vacant home care, we deliver a highly experienced, detail-driven approach backed by decades of expertise in property management and real estate. We focus on both the fine details and the broader picture, intuitively and promptly identifying issues while providing clear, informed insight. Our experience spans diverse environments, with a strong understanding of how coastal and seasonal conditions impact a home.

Primary business/service offered?

Routine property inspections and monitoring to help keep your home secure and well cared for while you're away.

What makes your business special?

We work with homeowners and real estate professionals for absences of any length—from a quick visit to let in a vendor or accept a delivery, to keeping an eye on your home all season long. We understand life gets busy (and properties can be spread out), so we're here to be a reliable set of eyes when you can't be there.

Best thing you sell/serve/do?

The best thing we do is provide homeowners with peace of mind by being their trusted set of eyes when they can't be there.

Something people don't realize about your business/services?

Many people don't realize how flexible our services are. Whether you're away for a quick trip, gone for the winter, or managing a vacant home while it's on the market, we can tailor our visits to fit exactly what you need.
