Durham Carpentry & Renovations

Owner?

James Durham

How long in business?

We opened in 2025.

Primary business/service offered?

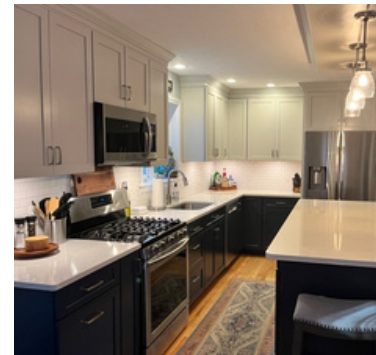

We offer custom carpentry and renovations.

What makes your business special?

What makes us special is the level of craftsmanship and attention to detail that goes into every project. James has a natural ability to create custom cabinetry, built-ins, and shelving that feel like they've always belonged in the home—blending seamlessly with the existing style and character of the space. His thoughtful approach, precision, and commitment to quality result in finished projects that feel both beautiful and timeless.

Best thing you sell/serve/do?

One of the things clients appreciate most is the personalized approach and versatility James brings to every project. Whether it's kitchen renovations or solving a challenging space issue, James takes the time to understand the vision, communicate clearly, and deliver results that are functional and beautifully finished.

Something people don't realize about your business/services?

The level of care that goes into every detail. James handles everything including repairs and renovations, flooring and tile installation, deck work, and creative solutions in both residential and commercial spaces. He's known for his craftsmanship, thoughtfulness, and investment in the final result. As one client shared, "James is a magician with wood... a problem solver who works hard to find solutions for complicated home repairs."
